

**Medfinansieras av  
Europeiska unionen**

In Smakbyn's work, with a focus on innovation and customer orientation, the company has carried out a project during 2023-2024 to internationalize its services and products. This has been co-financed by the Åland Structural Funds Program 2021-2027.

Through the project, we have opened up new business opportunities and generated growth for the company. We want to offer our guests easily accessible and unique catering and experience packages.
